

All NSRG Members,

As you know , Dr. Henry has set new rules.

After some time to review them I am prepared to post updated Covid range rules.

There is some confusion over the mandatory mask requirement. This is for INDOOR confined spaces. The range is not an indoor space. The clubhouse, airgun range and bathrooms are indoor spaces. The clubhouse has been closed for gatherings and remains so. The airgun range will require masks, and I don't need to mention occupancy limits for the bathrooms.

Disciplines, events and gatherings are suspended.

Guests will be restricted to one person that must be in the NSRG members social bubble. Please ensure you supervise your guest's use of sanitizers and observe social distancing.

Please wear a mask when you arrive and sign in. Bring your gear in and when you are at your shooting position you can remove your mask. Remember to social distance on the firing line and wear a mask if you can't.

We are fortunate that our sport takes place outdoors, but that doesn't mean we can be lax.

Safe Shooting  
Dave Metcalf
