

ISSF SPORT PISTOL EVENT

The ISSF Sport Pistol Event is identical to the International Centre Fire Event but a .22 cal handgun is used instead of a centre fire handgun. Like the International Centre Fire Event it consists of a Precision Stage with 30 shots total, and a Rapid Fire Stage with 30 shots total. In both stages, shooters load and fire 5 shots in a series before re-loading and firing another 5 shot series. Scores are tabulated after each 10 shots.

PRECISION STAGE - Sport Pistol - Six series each consisting of 5 shots in 5 minutes.

The commands for each series are:

“Load”

“Attention”

A whistle or beep will indicate when to start and stop shooting

RAPID FIRE STAGE - Sport Pistol - Six series each consisting of 7 seconds rest followed by 3 seconds to aim and shoot.

The commands for each series are:

“Load”

“Attention”

A whistle or beep will indicate when to start and stop shooting

For more detailed instructions go to the [International Centre Fire Pistol Event](#) document.
